ANOTHER "SHARRHAI" PAPER "GIN 13."—The Port Howard Ere, published at Green Bay, ex-pired last week for the want of patronage. Just as we expected. Shanghai stock is getting be-low par in all quarters.—[Waukesha Plaindesler. Unfortunately for the Plasadealer's chuckle it happens that the Fort Howard Era was democratic paper, though certainly not of the "Baretow" stripe. And yet it appears that he has discharged be official duties with signal fidelity and from and with a strict regard to law and justice.—[Apple ton Orescent (dex.)

This compliment is not undescreed. Mr. Danwas her certainly proved himself a competent and faithful officer. He is a bright exception to the "Balance" of the State Administration.

Dr. Covery of a Perentied Indian.—We learn from: I find that as the workone upon the Milwarks and La Crosse Raifroad were at work upon in excavation near Schlesingoryile, a few days since, the petrified remains of an Indian were found, and with his remains, relice of olden times. The remains are perfect, not having suffered the considered gigantic—his body measuring seven feet two inches in length. On his besat was a plate of copper, on which were engraved numerous heroglyphics, the meaning of which can hardly be imagined. But there they are a record of the past. Could these heroglyphics be reed, they might, perhaps unveil some of the mystery which hargs like a dark cloud over the history of the red man. An arrow, of considerable strength and curious construction, attention of autiquatians.

These remains may be seen at the store of Caspit Liver, in Schleisingerville, for a few days.

Wisconsir has taken the Badger for its employen or "totem," as the Indian call it, as Michigan has assumed the Wolverine; and we think that the former has the advantage, the Badger being a more honset and respectable animal than the Wolverine, which is a sort of a pirrate of the woods, lying in wait for the defence-less deer, which he pounces on by ateath, and estorming it to be his manifest destiny to eat up all the pige and absep that come in his way. The following I clip from the Dally Enquirer of lo-day. It will be interesting to all those who expect to get "damages" on Gov. Berstow's late Lunatia Asylum Contract, for the case referred Lucatio Alytim Contract, for the case referred to sovers precisely the same ground (I mean legally, not superficially) as our celebrated Lunatic Contract. The only difference consist in the fact that the modesty of the "speculatora" bore would not allow them to attempt to smooge Hamilton county more than \$5,000 or \$6,000, while our contractor and Governor had no conscientions or constitutional screenies in taxoning the tious or constitutional scruples in tapping the treasury deep enough to secure half a million, or so. These Unclimate sharpers are too, modest, allogather, and their financial transactions are but small, one-home, retail concerns, compared with the wholesale management of some of our

Badger financiers.

Here in the article I alluded to above : INTERCTION UNON THE WORK ON THE NEW INTEROFION UPON THE WORK ON THE NEW COUNTY I SHATID ASSESSME.—Yesterday morning Judge Storer delivered a decision in the several cases involving the validity of the Lunatic Asy lam contracts which were argued before this rourt on Friday last. The Judge decided that the contracts were likegal, upon the ground that the net passed by the Legislature in 1848, and

though the county commissioners to advertise for sontracts, was not complied with; and that all money paid under the present contract was done without the authority of law. An injunetion was progred restraining the contractors from prosecution of the work, and the bonds Here is a clear procedent for our courts to fol-low in disposing of the celebrated Lunstic con-aract of Barstow and the balance.

These remains may be seen at the store of Caper Liver, in Schleisingerville, for a few days.

A LAW INCORPR.—At the last term of our Chrest Court, three meu were inducted for burglary—committed in breaking into the gun ahop of R Holmes, of the town of Delaficial in this of R Holmes, of the town of Delafield in this County. Two of them plead "guilty" at the time, and were sent to Wanpun for a term of years; the other applied for a change of venue to Walvorth Co., which was allowed. At the late term of the Grount Court, our District Attorney with a number of witnesses, repaired to that County for the purpose of prosecuting the prisoner, who had engaged as rounsel, the Hon. David Voggle of Janeaville. The counsel for the defendant in examining the indictment, discovered that according to that iestrument, the offence with which his olient was charged was commited that according to that issirument, the offeace with which his older was changed was committed 300 years ago and accordingly moved to discisaçe the prisoner on the ground that the matter was outlawed; and the prisoner was discharged. All three of these being held under the same indirtuent, the question now is, whether it is proper to detain the other two in the State Prison on their own confession that they committed a game, which the indictment shows to have been committed about 775 years before they were born.

The editor of the Madison Patriot, now on a visit to Cincianusi, has discovered a judicial precedent in Ohio which is not without interest to the tax-payers of Wiscousin. A DISTINGUISHED CONVERT.—The New York Times mentions a rumor circulating about New York, in literary circles, that Hon. The Test of Possible Republicanism.

the Press has been, in many metances, violated, and proprietors of public journals been made to suffer much injustic. If the freedom of the Pross has in some cases been abused by rickless and unsermpulous journalists, to the lejury of insecont parties, there is a large balance on the side of the press, showing that journalists have nuffered severely when they were but discharging the duty which they owed to the public, and suffered at the hands of those who made the wrong of a musty old law the means, not to grove good that which the Press had pronounced bad, but simply to extert money. But the day for such extention, in this State at least, is rapidly passing away. The first vital blow was given to it by our Legislature of the year 1854. given to it by our Legislature of the year 1854 when it was established as the law of the State when it was entablished as the law of the State that no reporter, editor, or proprieter of any newspaper shall be lable to any action or pros-ecution, civil or criminal, for a fair and true re-port in anch newspaper of any judicial proceedport is such a temperate any judicial proceedings, of any statements, speech, argument, or debate in the course of the same, except upon actual proof of malice in making such report, which in no case shall be implied from the fact of the publication.

The case was that of Rimery Matthews against the proprietors of the New York San, and it is noticed under our legal head. It is not necessary for us to state the particulate, it is only the principle with which we have to do; and that principle Judge Bosworth in his charge distinctly enunciated.—
He said the rule is "that a party who justifies the publishing of a libel, by attempting to prove that what was published was true, must show that in its substance and meaning the facts were as the its substance and meaning the facts were as the article states; and although every part of an article, claimed to be libellous as a whole, is not proved to be true by the defence, yet if what is left is not of itself libellous, the defence a made out.

THE BADGES. - This course of the bear family The Bargers.—This cousts of the bear family is found on the Western plains. It much research bles in appearance the European Barger, though there are said to be organic difference between them. It lives in holes in the ground, from which it suddom issues forth by day. It fights despirately when assailed by man or dug, and being protected by a skin of great thickness, is not easily killed. Wisconsir has taken the Badger for its emblem, or "totem," as the Indian call it, as Michigan has assumed the Wolverine; and we think that the former has the advantage, the Badger being a more houset and respectable animal than the Wolverine, which is a sort of a pirate of the woods, lying in wait for the defence. mat than the Woiverne, which is a cott of a pirate of the woods, lying in want for the defence-less deer, which he pounces on by stealth, and esterming it to be his manifest destiny to eat, up all the pigs and sheep that come to his way. We advise the Michigan people to drop the Woiverne, and amume the Bear—a decent heast, that minds his own business.—[Putnam's Magazine.

On Thursday, the District Court of Ohio, in assume at Cincinnati, graited a new trial to W. H. Arison, of Infernal Machine notoriety, convicted of murder, on the ground of misdirection in Judge Flyna's charge to the jury.
